EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In each of claims 12, 18 and 20, on the third-to-last line, change "imaginarily" to -imaginary--.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The prior art does not teach the claimed stator strip-shaped lamella including, inter alia, "second teeth having a width b4 which corresponds to a perfectly straight portion of a groove bottom and a width b3 which corresponds to a distance between two intersecting points, said intersecting points being determined by theoretically extending tooth flanks of said second groove so that they intersect with imaginary extensions of said groove bottom, and a ratio between the widths b4 and b3 is between 60% and 85%."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
